kroatengasse 15, 97070, wurzburg, Germany

About me:
I am a passionate and determined candidate who has transformed her hobby into a career, seeking an opportunity with a reputable organisation. I am an accomplished Associate Software Developer with over 1+ years of experience working on real world projects by acting as a developer and programming analyst.

## WORK EXPERIENCE

01/01/2021 – 31/12/2021 – Karachi, Pakistan
**ASSOCIATE SOFTWARE DEVELOPER –** ALGORACK INC.

- I worked alongside some of the most skilled programming professionals.
- Working on Full Stack Technologies such as **Angular**, **React Js**, **Node JS** and others.
- Handle **API Integration** and **Wekhooks**
- Created successful test scripts to manage automated feature testing.
- I was exposed to the **software infrastructure** used in such a **large sized professional company**.
- I learnt to integrated Build systems for example **Bable** and **Webpacks**.
- Worked with sql and noSql databases such as **Mongodb**, **MySql**
- Integrated **third-party tools** and components into applications.
- This helped me increase my **team-working creditability** working within a professional IT department
- and understanding the **workplace dynamic**.

## EDUCATION AND TRAINING
